

*because bigger is better*

Dear Customer,

I would like to take this opportunity to introduce to you the best jewelry cleaner on the market - Brilliant One-Minute Diamond and Jewelry Cleaner.

For years I have been searching for a high-quality jewelry cleaning product that does not harm the Yehuda clarity enhancement. When I'd find a good cleaner, it was not right for our product. Those that did not harm our merchandise did not clean as well either. I have found "Brilliant restorer" to be a great, easy-to-use cleaner that has the additional benefit of being safe for our product. It might be more expensive than other cleaners on the market, but I feel it is the best choice for cleaning Yehuda Diamonds

I have enclosed a sample of Brilliant One-Minute Diamond and Jewelry Cleaner for you to try. Brilliant was selected for the DIC's Academy Award Gift Bags and is recommended by the JIC. It is the only cleaner with an instantaneous hard water remover.

You can get more information at: [www.brilliantdiamondcleaner.com](http://www.brilliantdiamondcleaner.com) or contact Bob Oku toll free at (866) 441-4423. Mention that you are a Yehuda customer and you will receive a discount on your purchase. You can also visit Bob at JCK Las Vegas ETS Booth 61207.

Looking forward to meeting you at the show.

Sincerely,

Dror Yehuda

President  
Yehuda Diamond Company.
